

Mark Jayvee Mojica, a CvSU alumnus and now one of the research assistants at the Office of the Vice President for Research and Extension (OVPRE), emerged as the Best Paper Presenter during the De La Salle University - Dasmariñas (DLSU-D) Graduate Seminar 2020 held last May 30 with the theme, “Conducting Online Video Discussion (COVID) Reaching New Heights Through Multi-Disciplinary Studies in Scientific Research and Innovation”.

A total of 15 paper presenters from different educational institutions whose researches revolved around human health, food science, and environment competed for the award. Over 40 participants attended, asked questions, and witnessed the paper presentations. Mojica’s paper titled, “Geographic Information System-Based on Land Use Mapping and Assessment of Central Hilly Areas of Cavite” identified six major land uses present in Cavite, namely: agricultural, bare land, forested, grassland, residential, industrial. Based on soil characteristics like soil
