GRAND TOTAL

Write grand total in words: _____

Date: _____

Name of Bidder/Owner's Representative: _____

Position: _____

Construction Company/Co. _____

Contractor: _____

- 1. The project should be finished in 35 calendar days.
- 2. Actual site inspection is a must.

3. The area should be cleaned before and after the construction work. Unusable formworks and all unwanted debris of construction work should be disposed properly.

B. TECHNICAL DESCRIPTION

The project involves the construction of a new building structure. The technical description details the materials, methods, and sequence of work. It includes the foundation, structural frame, and exterior finishes. The foundation consists of concrete piers and beams. The structural frame is made of reinforced concrete columns and beams. The exterior walls are finished with brickwork and plaster. The roof is a flat concrete slab. The construction process follows a sequential approach, starting with the foundation, followed by the structural frame, and finally the exterior finishes. The project is completed within a specified time frame and budget.
